Dedication . .

It is with a great deal of satisfaction that we are able to dedicate this annual edition to our sponsor, Mrs. Virginia Evans.

The students of P. R. C. are greatly indebted to her for her untiring efforts toward making the college a better place in which to live and learn. Inside the classroom, she is a hard taskmaster, requiring the best work possible from each student. Outside the classroom, she is one of the friendliest persons on the campus She has a good word for everyone, plus a particularly dazzling smile for those who have troubles No one can leave her presence without feeling that everything will be all right, and that the world is a pretty good place in which to live.

Mrs. Evans came to us immediately upon receiving her Master of Arts degree from the Mississippi State College for Women. She is a native of Okolona, Miss., and received her Bachelor of Arts degree from the University of Virginia

President's Message . .

PRESIDENT R. D. McLENDON

As the 35th annual session of Pearl River Junior College approaches the close it seems fitting that we, the present faculty and student body, express our appreciation to those of the past who have contributed to the building and organization of this institution of learning in South Mississippi. Traditions are inspiring; the halo of glory of the past serves as a beacon of light today. The desire of everyone is for Pearl River Junior College to serve the people of this section as it has in the past.

1946-47 has been a great year. The magnitude of the dislocatino suffered during the war was enough to discourage the weak. However, the speed of reconversion is a tribute to the American people and its schools.

Every great school or event is measured by the type and quality of leadership that guides the destinies of that organization. Individual students, both present and past, are ambassadors of good will. For this institution to grow, all must cooperate in expanding this program of service.

Pearl River College is looking into the future—seeking ways and means of greater service. The pages of this publication by the Cadet Staff portray the present. Who can depict the future?

The future of this institution is closely allied with those who are to follow those who have gone before. Pearl River College is happy that it has been able to make some contribution toward the realization of that future goal—normalcy. The veterans of World War II have been a stabilizing force on our campus. Thus much joy and pleasure has been ours due to the close and intimate association of faculty and students that can be realized only in small schools such as ours.

The Cadet Staff is to be congratulated for its work in compiling a resume of the college life and activities of today. This work should be a treasure for us of the present, and I feel sure we can join the staff in sending greetings and best wishes to students of the past and future. To the students of the past—may these views bring pleasant memories. To the students of the future—may this work of the staff bring to you an opportunity to view the tangible assets of our school. I trust that the future may bring past, present, and future students together to enjoy those intangibles of Pearl River College which are peace, growth, happiness, and brotherly love.

The Big Wheel . .

"Hey, Murphy, how about a cup-a-joe"—mighty familiar words around this campus, and definitely a mighty familiar habit. The joe run has its starting point at the campus and has two terminal stops, one at SLADES and the other on the town end, ORR'S CAFE.

Just in case you haven't heard yet, Murphy is the campus big-wheel, the mightiest little mite in the house—the boss of all joe expeditions. You can see him presiding at the head of the table any morning around ten o'clock, while the campus sports hang on his every word and Mrs. Josie bows to his every wish.

Or then again if his nibs wishes to stop at the Drive-in, there, too, the crowd will be found, for perched on a stool his majesty will be speaking the campus slogan, "Hey, Slade, cup-a-joe."

Any night the juke-box can be heard bouncing out the latest jump-tunes and the atmosphere always reeks of hamburger, coffee, laughter, and Harry James. Yes, it's quite a life according to Mrs. Josie and Slade; they both say that life would be nothing without the joe-run and, of course, the people who make them. In fact, according to the powers that be the joe-run will be added to the curriculum next semester, coming under section two of the course in Campusology. The course will be taught by those able Prof's Orr and Slade.

Oh yes, and presiding over it all—the biggest of the big-wheels, or as Mrs. Josie would say, "he's so cute, that little Murphy Evans."
